

REGULATORY DATABASE 101

2023 VERSION

EXPANDING INTO A NEW STATE? STARTING A NEW PEO? NEED TO CHECK UI RATES? LOOK NO FURTHER.

Overview

What is the Regulatory Database?

NAPEO's comprehensive regulatory database provides up-to-date, detailed information about the broad range of laws and regulations affecting the PEO industry in all 50 states and at the federal level, including licensing and registration requirements. The easy-to-navigate interface allows users to easily research legal information, make state-to-state comparisons, search topics of interest, and generate reports.

Benefits

Compliance, Custom Reports, and all regulatory information you will ever need.

- **Compliance topics based on your area of focus:**
 - The State Regulatory Database provides detailed information for PEOs to understand what is required by state on a range of different topics from workers' compensation, PEO registration and licensing, unemployment insurance, and more.
 - The Federal Regulatory Database is a starting point for research into federal law or regulation affecting professional employer organizations.
- **Detailed information at your fingertips**
 - Everything you need to know in one spot:
 - PEO registration requirements
 - Fees
 - Contacts
 - Articles
- **Create Custom Reports that fit your needs:**
 - The State Regulatory Database report builder is great for PEOs doing business in multiple states. You can create different reports and save for future reference.
 - The report provides you the information you are looking for in an easy-to-use way along with resources to further dig into the topic.

Why NAPEO members love the RDB

Their words, not ours.

- "The NAPEO Regulatory Database allows my compliance specialist to confidently review and verify if any changes are necessary during the licensure and reporting process. The Regulatory Database is top notch and we are very heavy users of it. It is our go-to reference source. This, to me, is value."
- "Great tool for any PEO. It would take me hours upon hours to locate each state's website, then search their website for the specific area I need. The regulatory database directs me right to the source."
